### IV. APP Operation

Scan the QR code on user manual to download the app. Open App "RS Casa", click "Register" and select your Country/Region code.

- If you use phone number, please click on "Next" and you will receive a verification code on the same number, enter the code and complete the process.
- If you use email, please click on "Next" and create a password.
- Set the password with 6 to 20 alphanumeric.

**NOTE:** RESET the device before making the device connection (See FAQs for device RESET method).

### V. FAQs

#### 1. What to do if Smart Bulb is not connecting with the application ?

- Please check whether device is Switched ON.
- Check if your device is connected to the same Wi-Fi to which your phone is connected.
- Check device is in searching mode or not.
- Make sure the password entered in APP is correct when adding new device.
- Note: The device only support 2.4GHz Wi-Fi.

#### 2. How to RESET the device ?

- Power ON the device. Power off after 10s, again power on, turn on and off the device 3 to 4 times (do not turn on and off instantly, keep ample time interval in turning on and off) until bulb starts quickly flashing same as shown on in the application) . If it flashes slowly, please repeat again and let the bulb flash quickly.

(3)
